1. Fairs, Exhibitions and Racing Division (FERD)

- A. MDA continued to work closely with Michigan Harness Horsemen's Association, pari-mutuel tracks, Northern Fairs and Racing, Michigan Association of Fairs and Exhibitions and the Office of Racing Commissioner to assign 83 race days at county fairs offering over 600 races and six futurities in 2004. In 2005, 85 race days at county fairs offered over 600 races and six futurities. In addition, the committee set 36 high level Elite races in 2004 and 52 in 2005 at pari-mutuel tracks. MDA, with the advise of the horsemen committee, assigned the Standardbred Sire Stakes races to Hazel Park Raceway. MDA issued 2,536 payments to Standardbred and Thoroughbred breeders and 204 owner award payments in fiscal year 2004 and again in 2005.
- B. MDA staff worked with Great Lakes Downs Thoroughbred track and Mount Pleasant Meadows mixed breed track to help track employees better understand the complex nature of the Michigan-bred programs, owner award payment process, and audit procedure.
- C. During 2004 and 2005, regulations monitored by FERD were legislatively opened and closed to make changes to comply with changing industry needs. Regulation 813 was restructured and scheduled to be completed before the 2006 county fair racing and pulling season. Regulation 816 is open and FERD staff are finalizing the restructuring process.
- D. An equine drug detection crew was hired to assure the highest standards are followed at county fair horse racing and pulling events. FERD collected approximately 1,200 samples at 65 county fair horse race days and 12 horse pull events in 2004. In 2005, around 1,240 samples were collected at 66 county fair horse race days and 27 horse pull events.
- E. FERD staff collected DNA samples from all the steers and lambs entered into the 2004 and 2005 Michigan State Fair Youth Market classes. Additional samples were collected at the fair from the Grand, Reserve, and Grand Champion Pair to ensure correct animal identity.

- J. Five fairs in 2004 and four in 2005 volunteered to take part in a water safety issues study at fairgrounds. Each fair was visited twice, once prior to the fair and again during the fair. FERD led the task force of personnel from MDA's Food & Dairy and Environmental Stewardship Divisions, the Michigan Department of Environmental Quality and local health departments. Evaluation of water quality included: water supply, distribution system, cross-connection control, abandoned wells, hand washing and drinking water, sewage collection/treatment, animal washing, manure management and chemical use/storage.
